

# Optimize Voice Quality of Service and Reliability

Prioritize voice traffic and improve quality of service with **SimpleWan**, the diagnostic tool that monitors, analyzes, and reports activity on your network. Available with ImpactConnect Hosted PBX, SimpleWan provides enhanced connectivity for voice prioritization.

✓ **Voice Prioritization**

✓ **Improved Connectivity**

✓ **Enhanced Quality**

**Prioritize VoIP Calls**

By reserving a set amount of bandwidth for placed and incoming calls, SimpleWan prevents other devices from monopolizing bandwidth and disrupting call quality.

**Reduce Network Congestion**

With multiple employees connected to your network, SimpleWan monitors network activity to reduce congestion and ensure optimal performance and voice prioritization.

**Diagnose Activity**

SimpleWan diagnoses what is happening on your network and categorizes activity, enabling better network management.

The SimpleWan monitoring capabilities include a **monitoring portal** and **alarm triggers** that track network activity in context of your voice service and notify you of any problems, ensuring high-quality network performance at all times!
